

ARMS 10

29 OCT - 03 NOV 2018, SINGAPORE

10th Asian Rock Mechanics Symposium
The ISRM International Symposium for 2018

WWW.ARMS10.ORG

Abstract Submission Extended: 10th Jan 2018

Happening from the 29th Oct to 3rd Nov 2018, the 10th Asian Rock Mechanics Symposium cum the ISRM International Symposium for 2018 will be held in the heart of central Singapore at Suntec Convention Centre. As Asia's Leading Meetings & Conference Centre, Suntec Singapore is conveniently located in the Central Business District and just minutes from the city's transportation terminals, entertainment and cultural attractions.

The convention centre is situated next to the second largest shopping mall in Singapore, with direct access to 5,200 hotel rooms, 1,000 retail outlets, 300 restaurants, and 6 museums within walking distance (including Esplanade - Theatres on the Bay). One can definitely expect your ARMS10 experience to not only be a mentally engaging one but a spiritual one (through food and shopping of course!) too. For those who desire to see more, there are many options to explore the myriad of cultures and sights around Singapore's neighboring countries with a short drive or flight away. Stay tuned to the ARMS10 Webpage where both local and regional tours might be up from the drawing board.

Throughout the past few months, the committee members have been putting their heads together to ensure ARMS10 be packed with a quality line-up of technical programs, courses, workshops and distinguished speakers! At present, the committee has confirmed a total of 7 Keynote Speakers from various international regions along with a discussion for a "Young Researchers" category amidst the Plenary Talks.

With a view on the future of the ISRM, ARMS 10 will have special activities for students and young scholars, including the now standard ARMS Students' Night, student scholarships, Best paper competition, and the now popular Rock Bowl introduced by our Brazilian colleagues. For the first time, we will introduce a special Plenary Session featuring the Rocha Medal lecture together with 3-4 other lectures by young researchers (not older than 38 years).

The first ARMS10 Call for Participation was sent out in March 2016 bidding for participants to create their accounts and to download a copy of the Call. For participants, check out (www.arms10.org) for more updates and register your interest and submit an abstract! With your support participation, ARMS10 will be Shiock!

See you in Singapore at ARMS 10!

Yours Sincerely,
ARMS10 Organizing Committee
